SUMMARY

Currently enrolled in an immersive development program which involves professional readiness training, one-to-one mentorship, leadership development, and developer-specific training. Proven skills in collaborating with team members in a fast-paced environment.

PROFESSIONAL EXPERIENCE

Road to Hire

Tech Academy Participant

June 2017 – Present

- Participate in professional development modules, including public speaking, giving and receiving feedback, project management, and community involvement.
- Developed knowledge of programming languages via Treehouse courses, Udemmy videos, and Codecademy lessons.
- Received daily tech-related lectures from members of Red Ventures' software engineering team throughout program.

Fairfield Inn & Suites

Front Desk Assistant

May 2016 – June 2017

- Assist staff and guests with resolving problems with payment processes, including late and disputed charges.
- Collaborate with housekeeping and maintenance staff to ensure rooms are clean and ready for check-in.
- Facilitate onboarding process for incoming team members by streamlining their knowledge of FOSSE hotel management software.
- Conduct daily back-ups of FOSSE software at the end of every night shift to ensure accountability of the hotel.

Malik Robinson Photography

Freelance Photographer

May 2015 – Present

- Photograph special events, including weddings, proms, engagement parties, and senior school portraits.
- Coordinate with clients regarding artistic setting, photography packages, and payment information.
- Enhance photos using Adobe Photoshop and Lightroom to ensure client satisfaction with photo quality.

Carolinas Medical Center

Barista

April 2015 – March 2016

- Expedited customer visit by anticipating needs, providing quality beverages, and demonstrating product knowledge.
- Cultivated a diverse, positive working environment by engaging with team members during periods of high volume.
- Communicated inventory information to managers to maintain a well-stocked store and to aid in product ordering.

EDUCATION

Phillip O. Berry Academy of Technology

Charlotte, NC

Concentration in Informational Technology

June 2014

Relevant Coursework: Principles of Informational Technology, Computer Programming I and II, and e-Commerce.

VOLUNTEER EXPERIENCE

Steele Creek Development Center

Infant Room Volunteer

May 2016 – August 2016

- Developed plans with early development teachers for infants from 6 weeks-12 months old to master cognitive skills.
- Engaged in one on one interactions with children and taught them how to crawl and eat on their own.
- Stimulated each infant's fine and gross motor skills by engaging in activities that required movements and singing.

SKILLS

Computer: Experience in Microsoft Word, PowerPoint, Excel, Github, Adobe Photoshop, and Adobe Lightroom

Programming Languages: HTML, CSS, JavaScript, jQuery, React
